

How we support your child's university & career planning

We're really excited to partner with BridgeU to help your child discover the higher education pathway that's right for them.

Supporting self-discovery

Students can use BridgeU to explore job families and labour market trends. In addition our personality tests help students to learn more about their strengths & skills, plan their careers and inform their university research & applications.

University recommendations tailored to your child

BridgeU helps students to explore over 28,000 universities worldwide and receive personalised matches for over 139,000 English taught undergraduate courses in 11+ countries. BridgeU gives our students university recommendations based on their personal preference and encourages them to apply to destinations they wouldn't have previously considered.

Helping students to prepare high quality university applications

Students can use a range of tools to help their university applications stand out. BridgeU's Strategy Advisor helps students to understand how their experiences can help them stand out from their peers. With the Writing Builder, your child can write, edit and review their application essays.

Ensuring your child stays on track with their applications

BridgeU allows students to keep track of major university application deadlines & ensure our faculty & staff can monitor student's progress every step of the way! BridgeU can also help our university & careers counseling team to keep you updated on your child's progress!
